IF YOU CAN
*design &
engineer it*

TOGETHER
WE CAN *build. &
protect it*

We know that the success of a construction project relies on more than the products that are used, as it takes a lot of skill, knowledge, understanding and expertise to ensure that those products are applied in the best way possible.

At CPG Europe, we're committed to shaping the future through innovative approaches and sustainable solutions.

This commitment is backed up by the fact that we bring together first-class technology with a customer-focused approach and skills that have been built up over multiple decades within very specialised fields to provide a truly unique service.

From joint sealing, bonding & insulation through to passive fire protection, performance flooring, waterproofing and roofing solutions – our broad range makes us uniquely tailored to solving the complex challenges faced by today's architects, contractors, developers and tradesmen.

As experts in a wide range of engineered construction product solutions, CPG Europe provides the details that keep the world's major developments safe, strong, sealed and secure.

Europe's leading construction products brands...

OUR mission

Collaborate, innovate and educate for sustainable customer success.

OUR vision

Our people and product systems enable you to shape a world where buildings and structures save energy, last longer and exceed sustainability benchmarks.

OUR values

ENGAGEMENT

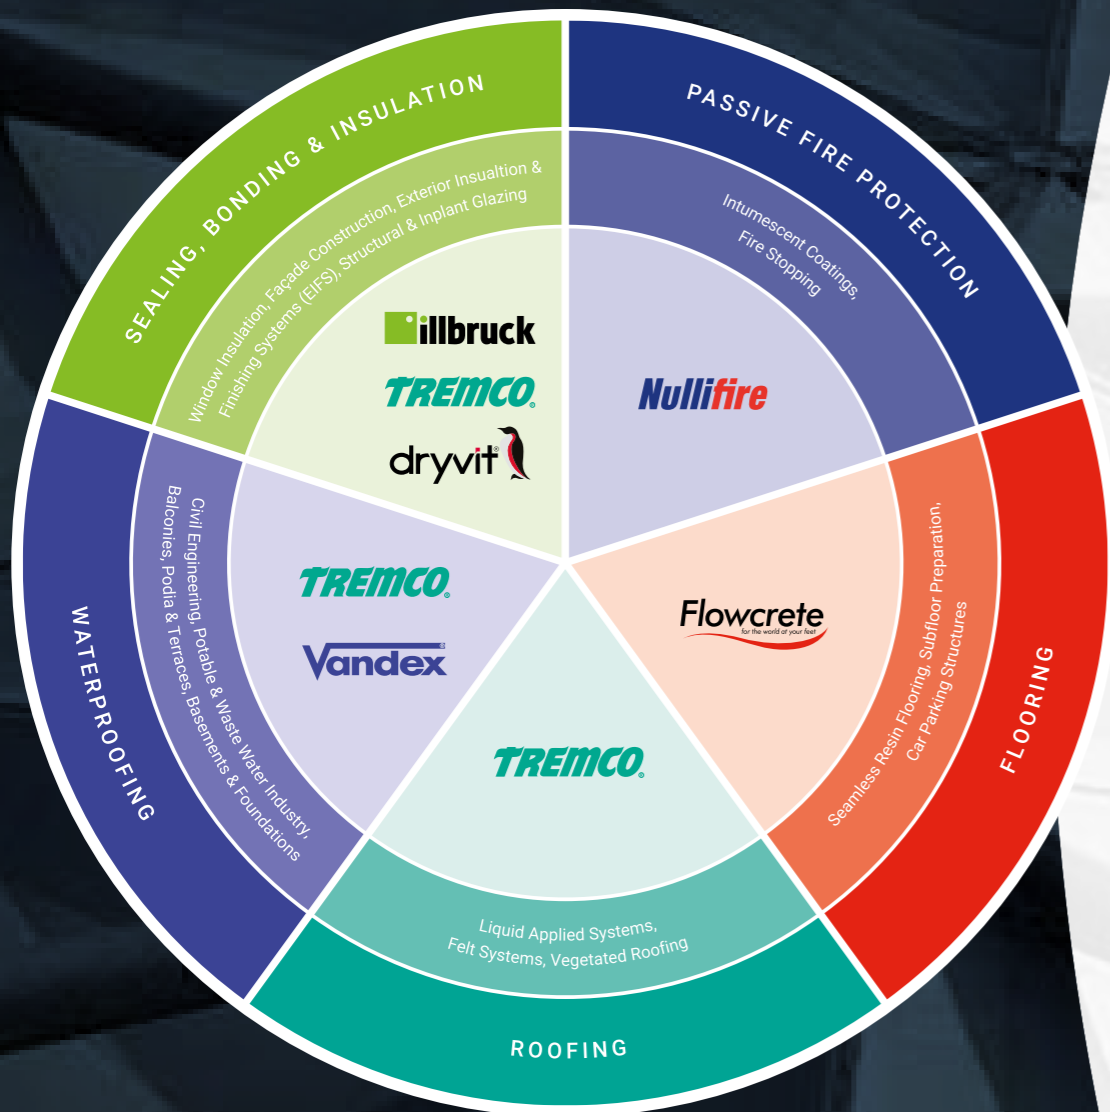

SUSTAINABLE
DEVELOPMENT

CPG Europe has 1,400 employees and is part of RPM International Inc. – one of the world's leading construction products companies for both the industrial and consumer segments. RPM is headquartered in Medina, Ohio (USA) and is listed on the New York stock exchange.

CPG Europe has a distinctive and leading position in the market owing to the strength of its well-recognised product brands and its capacity to leverage the synergies between them through effective collaboration of its people, products and services.

a family OF BRANDS under one roof

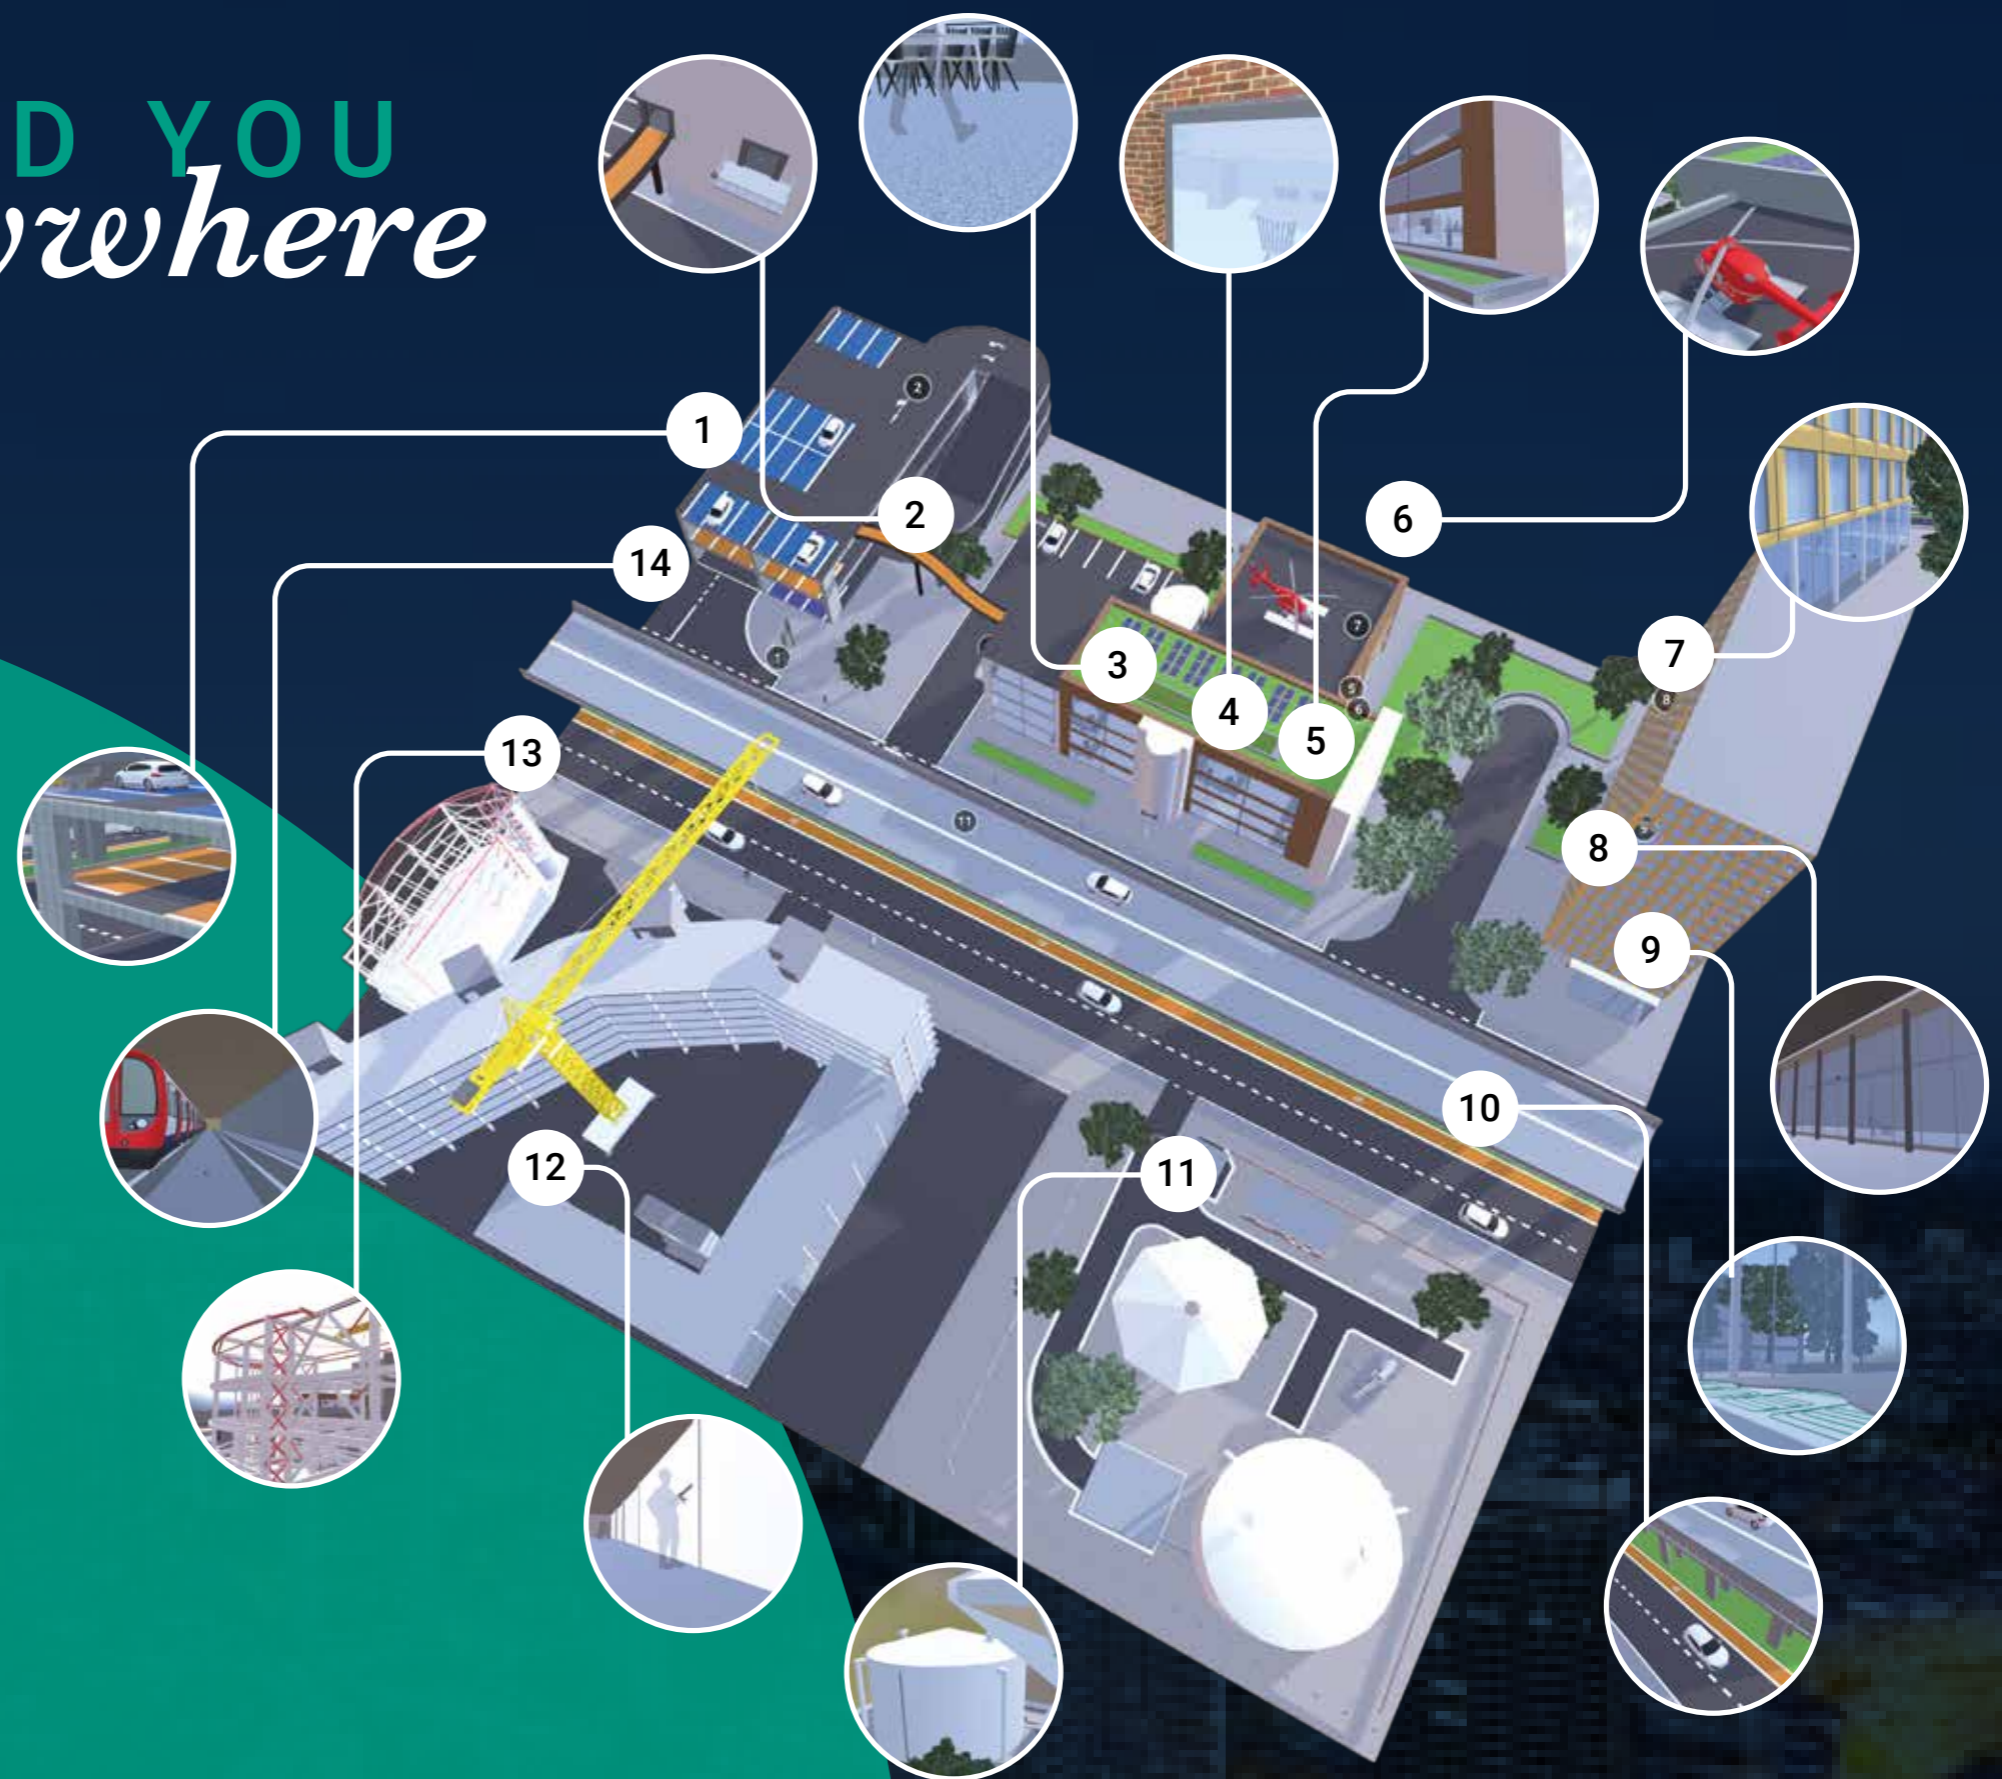

The product brands housed within CPG Europe cover a wide array of different construction needs and provide a wealth of complex services, support and systems that are rarely found together under one roof.

LOOK AROUND YOU *we're everywhere*

FOR CUSTOMER SUCCESS

We're committed to working alongside our customers to provide them with the information and help they need to be successful time after time.

This full-spectrum support means that our customers are provided with assistance right from the start of the design and specification phase through the application work and into the after-care maintenance and ongoing daily operations of the site.

When working with CPG Europe, you're getting much more than high performance building materials, as you'll also be getting a well-rounded customer experience that includes...

TECHNICAL ADVICE FOR EVERY SITUATION

Whether on the construction site, over the technical hotline or via chat, our specialists are always ready to provide you with advice and support. We also provide application videos that explain procedures and processing steps for our products in detail.

LOCAL MANUFACTURE & SUPPLY

We manufacture our product portfolio in a number of plants, located across Europe. This means that we are well placed to sell and supply products and services to any project, anywhere at any time.

PIONEERING TRAINING COURSES & SEMINARS

Our training courses provide technicians and site managers alike with support during planning and execution. Our seminars keep planners and architects up-to-date on the latest trends in construction. We have also developed special training formats for distributors to ensure that customers receive comprehensive advice on choosing and using their products.

THE DIGITAL DIFFERENCE

Our goal is to make your working day as convenient as possible. From a digitalised supply chain and new ordering channels like our online shop to digital services for architects, installers and distributors, CPG Europe sets the benchmark for the construction industry.

SHAPING A SUSTAINABLE FUTURE

By working to reduce our environmental footprint across all of our manufacturing sites through energy and water conservation as well as recycling, packaging optimisation and proper waste disposal, we ensure that our customers can source materials that meet the highest standards of environmental best practise.

CHOSEN by *major clients* ACROSS EUROPE

All across Europe, city skylines are stronger, safer, more resilient and more sustainable thanks to CPG Europe.

The wide-spread trust in the quality of our brands and their technologies can be seen by the number of high-profile, challenging and world-leading developments that have chosen to utilise our products, services and expertise.
