# Safety Data Sheet according to Regulation (EC) 'No. 2020/878

Billbruck Flowcrete, Nullifire Vandex TREMCO TO Dryvit To Nudura

and training required. Advised against: others than recommended

# SECTION 1: Identification of the Substance/Mixture and of the Company/Undertaking

1.1	Product Identifier	DECKSHIELD RAPIDE TOPCOAT PIGMENTED	Revision Date:	09/10/2023
	Product Name:	Deckshield Rapide Topcoat Pigmented	Supersedes Date:	12/08/2022
			Version Number:	1
	UFI Code:	6D10-10DC-U00K-EGJH		
	Contain nanoform:	No		
1.2	Relevant identified uses of the substance or mixture and uses advised against	Coatings and paints, thinners, paint removers. Manual activities involving hand contact. Widespread use leading to inclusion into/onto article (indoor). For use by appropriately trained applicators. Roller application or brushing. Low energy spreading of coatings. Advised against: Home DIY applications, because of the health hazards		

### 1.3 Details of the supplier of the safety data sheet

	Manufacturer:	Tremco CPG Poland Sp. z o. o. UI. Marywilska 34 03-228 Warszawa Polska
		Tel: +48 22 879 8907 Fax: +48 22 879 8918 ehs.uk@flowcrete.com www.flowcrete.com.pl/
	Datasheet Produced by:	ehs.uk@flowcrete.com
1.4	Emergency telephone number:	CHEMTREC +1 703 5273887 (Outside US)

# **SECTION 2: Hazards Identification**

### 2.1 Classification of the substance or mixture

Classification according to Classification, Labeling & Packaging Regulation (EC) 1272/2008

### HAZARD STATEMENTS

Flammable Liquid, category 2	H225
Skin Irritation, category 2	H315
Skin Sensitizer, category 1	H317
STOT, single exposure, category 3, RTI	H335
Hazardous to the aquatic environment, Chronic, category 3	H412

### 2.2 Label elements

### Symbol(s) of Product

### Signal Word

Danger

### Named Chemicals on Label

Methyl methacrylate, 2-Ethylhexyl acrylate, 1,1 Butandiol Dimethacrylate

### HAZARD STATEMENTS

Flammable Liquid, category 2 Skin Irritation, category 2 Skin Sensitizer, category 1 STOT, single exposure, category 3, RTI Hazardous to the aquatic environment, Chronic, category 3 <b>PRECAUTION PHRASES</b>	H225 H315 H317 H335 H412	Highly flammable liquid and vapour. Causes skin irritation. May cause an allergic skin reaction. May cause respiratory irritation. Harmful to aquatic life with long lasting effects.
	P210 P235 P261 P273 P280 P302+352 P304+340 P333+313 P403+233	<ul> <li>Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.</li> <li>Keep cool.</li> <li>Avoid breathing dust/fume/gas/mist/vapours/spray.</li> <li>Avoid release to the environment.</li> <li>Wear protective gloves/protective clothing/eye protection/face protection.</li> <li>IF ON SKIN: Wash with plenty of soap and water.</li> <li>IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.</li> <li>If skin irritation or rash occurs: Get medical advice/attention.</li> <li>Store in a well-ventilated place. Keep container tightly closed.</li> </ul>

# 2.3 Other hazards

No Information

### Results of PBT and vPvB assessment:

The product does not meet the criteria for PBT/VPvB in accordance with Annex XIII.

Endocrine disrupting properties - Toxicity						
Name According to EEC CAS-No.						
No Information						
Endocrine disrupting properties - Ecotoxicity

### Additional Information:

The text for CLP Hazard Statements shown above (if any) is given in Section 16.

### SECTION 4: First-aid Measures

### 4.1 Description of First Aid Measures

**GENERAL NOTES:** When symptoms persist or in all cases of doubt seek medical advice. Show this safety data sheet to the doctor in attendance. Remove contaminated clothing and shoes.

AFTER INHALATION: Keep respiratory tract clear. Remove person to fresh air. If signs/symptoms continue, get medical attention.

AFTER SKIN CONTACT: Use a mild soap if available. Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. If skin irritation persists, call a physician. Do NOT use solvents or thinners. AFTER EYE CONTACT: Keep eye wide open while rinsing. In case of eye contact, remove contact lens and rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. If eye irritation persists, consult a specialist. AFTER INGESTION: Gently wipe or rinse the inside of the mouth with water. If symptoms persist, call a physician or Poison Control Centre immediately. Never give anything by mouth to an unconscious person. If swallowed, DO NOT induce vomiting unless directed to do so by medical personnel.

### Self protection of the first aider:

No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

### 4.2 Most important symptoms and effects, both acute and delayed

No Information

### 4.3 Indication of any immediate medical attention and special treatment needed

No information available on clinical testing and medical monitoring. Specific toxicological information on substances, if available, can be found in section 11.

### **SECTION 5: Firefighting Measures**

### 5.1 Extinguishing Media:

Carbon Dioxide, Dry Chemical, Foam, Water Fog FOR SAFETY REASONS NOT TO BE USED: Alcohol, Alcohol based solutions, any other media not listed above.

### 5.2 Special hazards arising from the substance or mixture

Explosive reaction may occur on heating or burning. In use, may form flammable/explosive vapour-air mixture.

### 5.3 Advice for firefighters

Keep containers and surroundings cool with water spray. Fire will produce dense black smoke containing hazardous combustion products (see section 10). Flash back possible over considerable distance. In the event of fire, wear self-contained breathing apparatus. Do not use a solid water stream as it may scatter and spread fire. Collect contaminated fire extinguishing water separately. This must not be discharged into drains.

### SECTION 6: Accidental Release Measures

### 6.1 Personal precautions, protective equipment and emergency procedures

### 6.1.1 For non-emergency personnel

Ensure adequate ventilation. Use personal protective equipment. Keep people away from and upwind of spill/leak. Remove all sources of ignition.

### 6.1.2 For emergency responders

See Section 7, 8 and 10 for further information.

### 6.2 Environmental precautions

Do not allow material to contaminate ground water system. Prevent product from entering drains.

### 6.3 Methods and material for containment and cleaning up

Prevent further leakage or spillage if safe to do so. Contain spillage, soak up with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and transfer to a container for disposal according to local / national regulations (see section 13). Ventilate the area. Refer to protective measures listed in sections 7 and 8.

### 6.4 Reference to other sections

**FURTHER INSTRUCTIONS:** Please refer to EU disposal requirements or country specific disposal requirements for this material. See Section 8 and 13 for further information.

### SECTION 7: Handling and Storage

### 7.1 Precautions for safe handling

Take measures to prevent the build up of electrostatic charge. Vapours may form explosive mixtures with air. Prevent the creation of flammable or explosive concentrations of vapour in air and avoid vapour concentration higher than the occupational exposure limits. Electrical equipment should be protected to the appropriate standard. Provide exhaust ventilation close to floor level. As a rule, at least 10 air changes per hour are recommended at the workplace. Wear personal protective equipment. Open drum carefully as content may be under pressure. Use only in well-ventilated areas. Do not breathe vapours or spray mist. Keep product and empty container away from heat and sources of ignition. Use only explosion-proof equipment. Have fire extinguishers ready before opening the drum. Do not use sparking tools. Repeated or prolonged skin contact may cause skin irritation and/or dermatitis and sensitization of susceptible persons. In

the case of sensitisation to any of the ingredients, it is inadvisable to work with the product. Handle in accordance with good industrial hygiene and safety practice. Keep working clothes separately. Keep away from food, drink and animal feeding stuffs. When using, do not eat, drink or smoke. Wash hands and face before breaks and immediately after handling the product.

### 7.2 Conditions for safe storage, including any incompatibilities

**CONDITIONS TO AVOID:** Avoid temperatures above 25 °C, direct sunlight and contact with sources of heat. Heat, flames and sparks.

**STORAGE CONDITIONS:** Store at room temperature in the original container. Keep in an area equipped with solvent resistant flooring. Keep locked up or in an area accessible only to qualified or authorised persons. Keep container closed when not in use. Store in a dry, well ventilated place away from sources of heat, ignition and direct sunlight.

### 7.3 Specific end use(s)

Used with Flowfast catalyst. Component of a resin flooring product. The mixing and application to be in accordance with the technical data sheets.

### SECTION 8: Exposure Controls/Personal Protection

### 8.1 Control parameters

### 8.2 Exposure controls

### Personal Protection

**RESPIRATORY PROTECTION:** Vapours are heavier than air and can cause suffocation by reducing oxygen available for breathing. In case of insufficient ventilation wear suitable respiratory equipment. Respirator with filter for organic vapor. Respirator with a vapour filter: gas filter type A2 (organic substances).

**EYE PROTECTION:** Eye wash bottle with pure water. Safety goggles. Safety glasses with side-shields conforming to EN 166.

**HAND PROTECTION:** Use chemical resistant gloves (EN 374): Butyl rubber; thickness >= 0,5 mm; breakthrough time >=60 min. Solvent-resistant gloves. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough. Long sleeved clothing. Remove and wash contaminated clothing before re-use. Protective suit. Remove contaminated clothing and protective equipment before entering eating areas.

# OTHER PROTECTIVE EQUIPMENT: No Information

**ENGINEERING CONTROLS:** As a rule, at least 10 air changes per hour are recommended at the workplace. Avoid contact with skin, eyes and clothing. Maintain air concentrations below occupational exposure standards. Ensure adequate

ventilation, especially in confined areas.

# **SECTION 10: Stability and Reactivity**

### 10.1 Reactivity

Explosive reaction may occur on heating or burning.

### 10.2 Chemical stability

Stable under recommended storage conditions.

# 10.3 Possibility of hazardous reactions

Polymerisation occurs when exposed to white light, ultraviolet light or heat.

### 10.4 Conditions to avoid

Avoid temperatures above 25 °C, direct sunlight and contact with sources of heat. Heat, flames and sparks.

### 10.5 Incompatible materials

Oxidizing agents. Amines. Reducing agents. Heavy metal salts. Avoid radical-forming starting agents, peroxides and reactive metals.

### 10.6 Hazardous decomposition products

In case of fire hazardous decomposition products may be produced such as: Carbon monoxide, carbon dioxide and

### unburned hydrocarbons (smoke). No dangerous reaction known under conditions of normal use.

# **SECTION 11: Toxicological information**

11.1 Information on hazard classes as definied in Regulation (EC) No 1272/2008

Acute Toxicity:	
Oral LD50:	No Information
Inhalation LC50:	No Information
Dermal LD50:	No Information
Irritation:	Causes skin irritation, may cause allergic skin reaction.
Corrosivity:	No information available.
Sensitization:	Prolonged or repeated skin contact may result in allergic eczema.
Repeated dose toxicity:	No information available.
Carcinogenicity:	Non-carcinogenic in inhalation and feeding studies carried out on rats, mice, and dogs. Source: Reference literature for methyl methacrylate.
Mutagenicity:	Not mutagenic according to internationally accepted criteria. Source: Reference literature (methly methacrylate).
Toxicity for reproduction:	No information available.
STOT-single exposure:	No information available.
STOT-repeated exposure:	No information available.
Aspiration hazard:	No information available.

If no information is available above under Acute Toxicity then the acute effects of this product have not been tested. Data on individual components are tabulated below:

CAS-No.	Name According to EEC	<u>Oral LD50</u>	Dermal LD50	Vapor LC50	Gas LC50	Dust/Mist LC50
80-62-6	Methyl methacrylate	7872 mg/kg (rat)	>5000 mg/kg (rabbit)	3750 ppm (rat)	0.000	29.8 mg/l
103-11-7	2-Ethylhexyl acrylate	4435 mg/kg (rat)	7522 mg/kg (rabbit)		0.000	0.000
2082-81-7	1,1 Butandiol Dimethacrylate	10066 mg/kg (rat)			0.000	0.000
38668-48-3	1,1'-(p-tolylimino)dipropan-2- ol	2000 mg/kg (rat)	> 2000 mg/kg (rat)		0.000	0.000
2440-22-4	2-(2H-Benzotriazol-2-yl)-p- cresol	> 10000 mg/kg (rat)	> 2000 mg/kg (rat)		0.000	0.000

### Additional Information:

In the case of sensitisation to any of the ingredients, it is inadvisable to work with the product. Repeated or prolonged skin contact may cause skin irritation and/or dermatitis and sensitization of susceptible persons.

# Restrictions to product or to substances according to Annex XVII, Regulation (CE) 1907/2006:

Not applicable

### Annex XIV, Regulation (CE) 1907/2006 - Authorisation List:

CAS-No. Name According to EEC

Not Applicable

#### SVHC - Substances of very high concern (Candidate List - Art. 59 REACH):

### CAS-No. Name According to EEC

Not Applicable

### 15.2 Chemical Safety Assessment:

No Chemical Safety Assessment has been carried out for this substance/mixture by the supplier.

### SECTION 16: Other Information

#### Text for CLP Hazard Statements shown in Section 3 describing each ingredient:

H225	Highly flammable liquid and vapour.
H302	Harmful if swallowed.
H315	Causes skin irritation.
H317	May cause an allergic skin reaction.
H319	Causes serious eye irritation.
H335	May cause respiratory irritation.
H410	Very toxic to aquatic life with long lasting effects.
H412	Harmful to aquatic life with long lasting effects.

#### Reasons for revision

Substance and/or Product Properties Changed in Section(s):

- 01 Identification
- 02 Hazard Identification
- 09 Physical and Chemical Properties
- 11 Toxicological Information
- 13 Disposal Information
- 14 Transportation Information
- 15 Regulatory Information
- Revision Statement(s) Changed

This Safety Data Sheet (SDS) has been revised to meet the new EU CLP requirements. There have been both formatting and content changes based on the CLP classification (if applicable), please review each section of the SDS for specific changes.

List of References:

This Safety Data Sheet was compiled with data and information from the following sources:

- The Ariel Regulatory Database provided by the 3E Corporation in Copenhagen, Denmark.
- Joint Research Centre in Ispra, Italy.
- Regulation (EC) 1272/2008 with subsequent amendments.
- Regulation (EC) 1272/2006 with subsequent amendments.
- Commission Regulation (EU) 2020/878
- EU Council Decision 2000/532/EC and its Annex entitled "List of Wastes"
- Safety Data Sheet from raw material supplier
- The classification declared in sec. 2.2 is based on the calculation methods set out in Annex I and Annex II of the CLP Reg. 1272/2008 on the composition of the formula.

Acronym & Abbreviation Key:

CLP	Classification, Labeling & Packaging Regulation
EC	European Commission
EU	European Union
US	United States
CAS	Chemical Abstract Service
