### **SECTION 10: Stability and reactivity**

- · 10.1 Reactivity Stable
- · 10.2 Chemical stability
- Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.
- 10.3 Possibility of hazardous reactions Corrosive action on metals. Reacts with acids. Reacts with strong oxidising agents.
- · 10.4 Conditions to avoid Water / moisture.
- · 10.5 Incompatible materials: No further relevant information available.
- 10.6 Hazardous decomposition products: No dangerous decomposition products known.

# **SECTION 11: Toxicological information**

· 11.1 Information on toxicological effects

• Acute toxicity Based on available data, the classification criteria are not met.

(Contd. of page 5) · Primary irritant effect: · Skin corrosion/irritation Skin contact with wet cement, fresh concrete or mortar may cause irritation, dermatitis or burns. Causes skin irritation. · Serious eye damage/irritation Causes serious eye damage. · Respiratory or skin sensitisation Chromium (VI) may cause allergic dermatitis by repeated and/or prolonged skin contact. Chromium (VI) content = <2ppm (0.0002%) May cause an allergic skin reaction. · CMR effects (carcinogenity, mutagenicity and toxicity for reproduction) · Germ cell mutagenicity Based on available data, the classification criteria are not met. • Carcinogenicity Based on available data, the classification criteria are not met. • Reproductive toxicity Based on available data, the classification criteria are not met. · STOT-single exposure May cause respiratory irritation. • STOT-repeated exposure Based on available data, the classification criteria are not met. · Aspiration hazard Based on available data, the classification criteria are not met. SECTION 12: Ecological information · 12.1 Toxicity · Aquatic toxicity: No further relevant information available. • 12.2 Persistence and degradability No further relevant information available. • 12.3 Bioaccumulative potential No further relevant information available. • 12.4 Mobility in soil No further relevant information available. · Additional ecological information: · General notes: Do not allow product to reach ground water, water course or sewage system, even in small quantities. High concentrations in water will cause the pH to rise which may cause harm to aquatic life. · 12.5 Results of PBT and vPvB assessment • **PBT:** Not applicable. · vPvB: Not applicable. • 12.6 Other adverse effects No further relevant information available. **SECTION 13: Disposal considerations** · 13.1 Waste treatment methods · Recommendation Must not be disposed together with household garbage. Do not allow product to reach sewage system. Disposal must be made according to official regulations. · Waste disposal key: UK (WM3) : HP4 HP5 HP13 · European waste catalogue 08 02 01 waste coating powders · Uncleaned packaging: · Recommendation: Dispose of packaging according to regulations on the disposal of packagings.
