

Flowfresh SL (2 mm)

A self-smoothing, medium duty, HACCP International certified, antimicrobial treated polyurethane resin floor finish.

- 1 Prepared Substrate
- 2 Primer
- 3 Flowfresh SL

Polygiene®:

Contains a silver ion antimicrobial additive proven to inhibit the growth of most types of harmful bacteria.

Chemical Resistant:

Excellent resistance to sugars and most acids (organic and inorganic).

Wear Resistant:

Holds its own against impact, traffic and chemical attack.

Easy to Clean:

Minimal surface joints make the surface easy to clean and sterilise.

FIRE RESISTANCE

EN 13501-1	B _{fl} -s1
------------	---------------------

WEAR RESISTANCE

EN 13892-4	AR0.5 ($\leq 50 \mu\text{m}$)
------------	---------------------------------

BOND STRENGTH

EN 13892-8	B2.0 ($\geq 2.0 \text{ MPa}$)
------------	---------------------------------

IMPACT RESISTANCE

EN ISO 6272	IR10 (10 Nm)
-------------	--------------

TEMPERATURE RESISTANCE

Tolerant to intermittent spillages up to 60°C & Sustained dry heat from -20°C to 50°C.

COEFFICIENT OF THERMAL EXPANSION

ASTM C531	$5.70 \times 10^{-5} \text{ mm/mm}^\circ\text{C}$
-----------	---

WATER PERMEABILITY

Karsten Test	Nil (impermeable)
--------------	-------------------

SLIP RESISTANCE*

EN 13036-4 (typical values for 4-S rubber slider)	Dry > 50 Wet > 40 low slip potential
---	--

COMPRESSIVE STRENGTH

EN 13892-2	>50 N/mm ²
------------	-----------------------

FLEXURAL STRENGTH

EN 13892-2	20 N/mm ²
------------	----------------------

TENSILE STRENGTH

BS 6319-7	10 N/mm ²
-----------	----------------------

SPEED OF CURE	10°C	20°C	30°C
Light Traffic	36 hrs	24 hrs	12 hrs
Full Traffic	72 hrs	48 hrs	24 hrs
Full Chemical Cure	10 days	7 days	5 days

The figures above are typical properties achieved in laboratory tests at 20°C and at 50% Relative Humidity.

*The slipperiness of flooring materials can change significantly due to the installation process, after short periods of use, due to inappropriate maintenance, longer-term wear and/or surface contaminants (wet or dry). Textured systems are recommended to meet slip resistance value requirements for wet conditions and/ or surface contaminants (wet or dry). Please contact our Technical Department for further details and specifications.

Model Specification

System	Flowfresh SL
Finish	Matt
Thickness	2 mm

Preparatory work and application in accordance with manufacturer's instructions.

Products Included In This System

Primer (if required)	Flowprime @ 0.3-0.5 kg/m ² When a DPM is required: Hydraseal DPM @ 0.5 kg/m ² When high heat resistance is critical: Flowfresh Primer @ 0.3-0.5 kg/m ² or Scratchcoat (Flowfresh SL) @ 1.5 kg/m ²
Topping	Flowfresh SL (density 1.9 kg/l) @ 3.8 kg/m ² for 2 mm

Notes: Flowfresh SL must always be applied onto a primed surface. Flowprime is suitable for general use but Flowfresh Primer or Scratchcoat (Flowfresh SL) should be used if the area is exposed to heat (above 50°C) or hot liquids (above 60°C) Flowfresh SL is a self-sealing finish.

Detailed application instructions are available upon request.

Standard Colours

Cream

Ochre

Mustard

Red

Dark Green

Dark Blue

Mid Grey

Dark Grey

The applied colours may differ from the examples shown.
For a full colour chart and samples, contact your local CPG office.

Substrate Requirements

Flowfresh products are not suitable for application onto polymer modified self smoothing screed substrates. The compressive strength of concrete or screed substrate should be a minimum of 25 N/mm², free from laitance, dust and other contamination. Check the relative humidity at ground level. Substrate

humidity must not exceed 93% RH as per BS8203 (5.5% on Tramex scale) and be free from rising damp and ground water pressure otherwise the Flowprime must be substituted by Hydraseal DPM (surface dry). For areas where continual heat resistance (above 50°C) is critical, use Flowfresh Primer or Scratchcoat (Flowfresh SL). The Flowfresh Primer or Scratchcoat are also suitable for substrates up to 97% RH as per BS8203 (6.0% on Tramex scale)

Aftercare, Cleaning & Maintenance

Clean regularly using a single or double headed rotary scrubber drier in conjunction with a mildly alkaline detergent.

Installation Service

The installation should be carried out by a CPG approved contractor with a documented quality assurance scheme. Obtain details of our approved contractors by contacting our customer service team or enquiring via our website www.flowcrete.eu.

Note

Flowfresh SL is not colour fast and may change colour over time (exhibits a yellowing effect). Colour change depends on the UV light and heat levels present and hence the rate of change cannot be predicted. This is more noticeable in light colours and blues but does not compromise the product's flexibility or chemical resistance characteristics. We have endeavoured to adopt colours within our standard range which minimise this change. Intensively coloured products (e.g. hair colourants, medical disinfectants etc.) and plasticizer migration (e.g. from rubber tyres) can lead to irreversible discolouration in the surface. Please contact our Technical Services Department for further advice.

Microbial / Fungal Resistance

The Polygiene® antimicrobial additive incorporated into Flowfresh SL provides control of most bacteria and fungi which into contact with the floor.

Antimicrobial Active Substance	Silver biocide
Tested	ISO 22196 / JIS Z2801

Environmental Considerations

The finished system is assessed as non-hazardous to health and the environment. The long service life and seamless surface reduce the need for repairs, maintenance and cleaning.

Environmental and health considerations are controlled during manufacture and application of the products by CPG staff and fully trained and experienced contractors.

Tremco CPG UK Ltd products are guaranteed against defective materials and manufacture and are sold subject to its standard Terms and Conditions of Sale, copies of which can be obtained on request. Any suggested practices or installation specifications for the composite floor or wall system (as opposed to individual product performance specifications) included in this communication (or any other) from Tremco CPG UK Ltd constitute potential options only and do not constitute nor replace professional advice in such regard. Tremco CPG UK Ltd recommends any customer seek independent advice from a qualified consultant prior to reaching any decision on design, installation or otherwise.

System Datasheet written for Tremco CPG UK Ltd. Please consult Technical Team in your own country region for specific details. [29/09/23, 01 UK]
