# **SECTION 2: Hazards Identification**

#### 2.1 Classification of the substance or mixture

Classification according to Classification, Labeling & Packaging Regulation (EC) 1272/2008

#### HAZARD STATEMENTS

| H290   |
|--------|
| H302   |
| H314-1 |
| H317   |
| H332   |
| H412   |
|        |

#### 2.2 Label elements

#### Symbol(s) of Product

# Signal Word

Danger

# Named Chemicals on Label

Salicylic acid, Benzyl alcohol, m-Phenylenebis(methylamine), 4,4'-Isopropylidenediphenol, oligomeric reaction products with 1-chloro-2,3-epoxypropane, reaction products with 3-aminomethyl-3,5,5-trimethylcyclohexylamine., 3-Aminomethyl-3,5,5-trimethylcyclohexylamine

# HAZARD STATEMENTS

| Corrosive to Metals, category 1        | H290   | May be corrosive to metals.                        |
|--|--------|--|
| Acute Toxicity, Oral, category 4       | H302   | Harmful if swallowed.                              |
| Skin Corrosion, category 1             | H314-1 | Causes severe skin burns and eye damage.           |
| Skin Sensitizer, category 1            | H317   | May cause an allergic skin reaction.               |
| Acute Toxicity, Inhalation, category 4 | H332   | Harmful if inhaled.                                |
| Hazardous to the aquatic environment,  | H412   | Harmful to aquatic life with long lasting effects. |
| Chronic, category 3                    |        |  |
| PRECAUTION PHRASES                     |        |  |

| P260<br>P264 | Do not breathe dust/fume/gas/mist/vapours/spray.<br>Wash hands thoroughly after handling.   |
|--------------|---|
| P270         | Do no eat, drink or smoke when using this product.  |
| P273         | Avoid release to the environment.   |
| P280         | Wear protective gloves/protective clothing/eye protection/<br>face protection.  |
| P301+310     | IF SWALLOWED: Immediately call a POISON CENTER or<br>doctor/physician.  |
| P301+330+331 | IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.  |
| P302+352     | IF ON SKIN: Wash with plenty of soap and water.   |
| P304+340     | IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.  |
| P305+351+338 | IF IN EYES: Rinse cautiously with water for several minutes.<br>Remove contact lenses, if present and easy to do so.<br>Continue rinsing. |
| P333+313     | If skin irritation or rash occurs: Get medical advice/attention.  |
| P363         | Wash contaminated clothing before reuse.  |
| P390         | Absorb spillage to prevent material damage.   |
| P406         | Store in corrosive resistant/ container with a resistant inner liner.   |

# 2.3 Other hazards

No Information

# Results of PBT and vPvB assessment:

The product does not meet the criteria for PBT/VPvB in accordance with Annex XIII.

# Endocrine disrupting properties - Toxicity

Name According to EEC CAS-No.

No Information

Endocrine disrupting properties - Ecotoxicity

Name According to EEC CAS-No.

No Information

# **SECTION 3: Composition/Information On Ingredients**

Additional Information: The text for CLP Hazard Statements shown above (if any) is given in Section 16.

# **SECTION 4: First-aid Measures**

# 4.1 Description of First Aid Measures

**GENERAL NOTES:** When symptoms persist or in all cases of doubt seek medical advice. Show this safety data sheet to the doctor in attendance. Risk of product entering the lungs on vomiting after ingestion. Remove contaminated clothing and shoes.

**AFTER INHALATION:** Move to fresh air. Consult a physician after significant exposure. Keep respiratory tract clear. Remove person to fresh air. If signs/symptoms continue, get medical attention.

AFTER SKIN CONTACT: Use a mild soap if available. Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. If skin irritation persists, call a physician.

**AFTER EYE CONTACT:** Keep eye wide open while rinsing. Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses. If eye irritation persists, consult a specialist.

AFTER INGESTION: Gently wipe or rinse the inside of the mouth with water. Do NOT induce vomiting. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. If swallowed, seek medical advice immediately and show this container or label.

#### Self protection of the first aider:

No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

#### 4.2 Most important symptoms and effects, both acute and delayed

May cause sensitization by skin contact.

#### 4.3 Indication of any immediate medical attention and special treatment needed

Immediate medical attention is required. No information available on clinical testing and medical monitoring. Specific toxicological information on substances, if available, can be found in section 11.

#### SECTION 5: Firefighting Measures

#### 5.1 Extinguishing Media:

Carbon Dioxide, Dry Chemical, Foam, Water Fog

FOR SAFETY REASONS NOT TO BE USED: Alcohol, Alcohol based solutions, any other media not listed above.

#### 5.2 Special hazards arising from the substance or mixture

In case of fire hazardous decomposition products may be produced such as: Carbon dioxide (CO2), carbon monoxide (CO), oxides of nitrogen (NOx), dense black smoke.

#### 5.3 Advice for firefighters

Keep containers and surroundings cool with water spray. Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment. Fire will produce dense black smoke containing hazardous combustion products (see section 10). In the event of fire, wear self-contained breathing apparatus. High volume water jet. Hazardous decomposition products formed under fire conditions. Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

# **SECTION 6: Accidental Release Measures**

#### 6.1 Personal precautions, protective equipment and emergency procedures

#### 6.1.1 For non-emergency personnel

Ensure adequate ventilation. Use personal protective equipment. Keep people away from and upwind of spill/leak.

#### 6.1.2 For emergency responders

See Section 7, 8 and 10 for further information.

#### 6.2 Environmental precautions

Do not allow material to contaminate ground water system. Prevent product from entering drains. May cause long-term adverse effects in the aquatic environment.

#### 6.3 Methods and material for containment and cleaning up

Prevent further leakage or spillage if safe to do so. Contain spillage, soak up with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and transfer to a container for disposal according to local / national regulations (see section 13). Refer to protective measures listed in sections 7 and 8.

#### 6.4 Reference to other sections

**FURTHER INSTRUCTIONS:** Please refer to EU disposal requirements or country specific disposal requirements for this material. See Section 8 and 13 for further information.

#### SECTION 7: Handling and Storage

#### 7.1 Precautions for safe handling

Use only in area provided with appropriate exhaust ventilation. Wear personal protective equipment. Use only in well-ventilated areas. Do not breathe vapours or spray mist.

Repeated or prolonged skin contact may cause skin irritation and/or dermatitis and sensitization of susceptible persons. In the case of sensitisation to any of the ingredients, it is inadvisable to work with the product. Handle in accordance with good industrial hygiene and safety practice. Keep working clothes separately. Keep away from food, drink and animal feedingstuffs. Wash hands before breaks and at the end of workday. When using, do not eat, drink or smoke. Wash hands and face before breaks and immediately after handling the product.

# 7.2 Conditions for safe storage, including any incompatibilities

**CONDITIONS TO AVOID:** Avoid temperatures above 40 °C, direct sunlight and contact with sources of heat. Direct sources of heat. Do not freeze.

**STORAGE CONDITIONS:** Do not freeze. Store in original container. Store at room temperature in the original container. Keep locked up or in an area accessible only to qualified or authorised persons. Keep container closed when not in use. Store in a dry, well ventilated place away from sources of heat, ignition and direct sunlight.

#### 7.3 Specific end use(s)

Component of a resin flooring product. The mixing and application to be in accordance with the technical data sheets. Component of Mondéco Classic, Mondéco Crystal Ice, Mondéco Exotic, and their variants.

#### 8.2 Exposure controls

#### Personal Protection

**RESPIRATORY PROTECTION:** In case of insufficient ventilation wear suitable respiratory equipment. Respirator with filter for organic vapor.

**EYE PROTECTION:** Eye wash bottle with pure water. Tightly fitting safety goggles. Face-shield.

**HAND PROTECTION:** Impervious gloves. Take note of the information given by the producer concerning permeability and break through times, and of special workplace conditions (mechanical strain, duration of contact). Long sleeved clothing. Remove and wash contaminated clothing before re-use. Rubber or plastic apron.

#### **OTHER PROTECTIVE EQUIPMENT:** No Information

**ENGINEERING CONTROLS:** As a rule, at least 5 air changes per hour are recommended at the workplace. Avoid contact with skin, eyes and clothing. Ensure adequate ventilation, especially in confined areas.

# **SECTION 9: Physical and Chemical Properties**

# 9.1 Information on basic physical and chemical properties Colour: Clear

|   | Colour.   | Clear                     |

| 2 | Other information<br>VOC Content g/I:                         | <250                      |
|   |   |                           |

#### **SECTION 10: Stability and Reactivity**

Specific Gravity (g/cm3)

#### 10.1 Reactivity

9.2

No reactivity hazards known under normal storage and use conditions.

#### 10.2 Chemical stability

No decomposition if stored and applied as directed. Stable under normal conditions.

0.120

#### 10.3 Possibility of hazardous reactions

Hazardous polymerisation does not occur. Hazardous polymerisation may occur.

#### 10.4 Conditions to avoid

Avoid temperatures above 40 °C, direct sunlight and contact with sources of heat. Direct sources of heat. Do not freeze.

#### 10.5 Incompatible materials

Acids. Strong oxidizing agents.

#### 10.6 Hazardous decomposition products

In case of fire **hazardous decomposition products** may be produced such as: Carbon dioxide (CO2), carbon monoxide (CO), oxides of nitrogen (NOx), dense black smoke.

# **SECTION 11: Toxicological information**

# 11.1 Information on hazard classes as definied in Regulation (EC) No 1272/2008

| Acute Toxicity:            |                                      |
|----------------------------|--------------------------------------|
| Oral LD50:                 | No Information                       |
| Inhalation LC50:           | No Information                       |
| Dermal LD50:               | No Information                       |
| Irritation:                | No information available.            |
| Corrosivity:               | Corrosive to eyes and skin.          |
| Sensitization:             | May cause an allergic skin reaction. |
| Repeated dose toxicity:    | No information available.            |
| Carcinogenicity:           | No information available.            |
| Mutagenicity:              | No information available.            |
| Toxicity for reproduction: | No information available.            |
| STOT-single exposure:      | No information available.            |
| STOT-repeated exposure:    | No information available.            |
| Aspiration hazard:         | No information available.            |

If no information is available above under Acute Toxicity then the acute effects of this product have not been tested. Data on individual components are tabulated below:

| CAS-No.    | Name According to EEC   | Oral LD50        | Dermal LD50             | Vapor LC50     | Gas LC50       | Dust/Mist LC50             |
|------------|---|------------------|-------------------------|----------------|----------------|----------------------------|

# Additional Information:

In the case of sensitisation to any of the ingredients, it is inadvisable to work with the product. Repeated or prolonged skin contact may cause skin irritation and/or dermatitis and sensitization of susceptible persons. Corrosive - causes irreversible eye damage.

# 11.2 Information on other hazards

# Endocrine disrupting properties - Toxicity

Name According to EEC

CAS-No.

No Information

# **SECTION 13: Disposal Considerations**

**13.1** WASTE TREATMENT METHODS: Dispose of as hazardous waste in compliance with local and national regulations. If recycling is not practicable, dispose of in compliance with local regulations. Container hazardous when empty. Empty containers should be taken to an approved waste handling site for recycling or disposal. The product should not be allowed to enter drains, water courses or the soil.

National Regulations:

| Denmark Product Registration Number: | Not available |  |
|--------------------------------------|---------------|--|
| Danish MAL Code:                     | 00-5 (1993)   |  |
| Danish MAL Code - Mixture:           | Not available |  |
| Sweden Product Registration Number:  | Not available |  |
| Norway Product Registration Number:  | 170842        |  |
| Germany WGK Class:                   | Not available |  |

Covered by Directive 2012/18/EC (Seveso III):

Restrictions to product or to substances according to Annex XVII, Regulation (CE) 1907/2006: Not applicable

Annex XIV, Regulation (CE) 1907/2006 - Authorisation List:

CAS-No. Name According to EEC

Not Applicable

SVHC - Substances of very high concern (Candidate List - Art. 59 REACH):

CAS-No. Name According to EEC

Not Applicable

#### 15.2 Chemical Safety Assessment:

No Chemical Safety Assessment has been carried out for this substance/mixture by the supplier.

<250

Not applicable

# SECTION 16: Other Information

#### Text for CLP Hazard Statements shown in Section 3 describing each ingredient:

| H302  | Harmful if swallowed.                              |
|-------|--|
| H314  | Causes severe skin burns and eye damage.           |
| H317  | May cause an allergic skin reaction.               |
| H318  | Causes serious eye damage.                         |
| H319  | Causes serious eye irritation.                     |
| H332  | Harmful if inhaled.                                |
| H361d | Suspected of damaging the unborn child.            |
| H412  | Harmful to aquatic life with long lasting effects. |

#### **Reasons for revision**

This Safety Data Sheet (SDS) has been revised to meet the new EU CLP requirements. There have been both formatting and content changes based on the CLP classification (if applicable), please review each section of the SDS for specific changes.

List of References:

This Safety Data Sheet was compiled with data and information from the following sources:

- The Ariel Regulatory Database provided by the 3E Corporation in Copenhagen, Denmark.

- Joint Research Centre in Ispra, Italy.
- Regulation (EC) 1272/2008 with subsequent amendments.
- Regulation (EC) 1272/2006 with subsequent amendments.
- Commission Regulation (EU) 2020/878
- EU Council Decision 2000/532/EC and its Annex entitled "List of Wastes"
- Safety Data Sheet from raw material supplier
- The classification declared in sec. 2.2 is based on the calculation methods set out in Annex I and Annex II of the CLP Reg. 1272/2008 on the composition of the formula.

Acronym & Abbreviation Key:
